

Special Lecture Week

on

The Prospects of Cryogenic Detectors and Superconducting Electronics: from Fundamental Research to Applications

October 13–16 2020

*Online-only event
via ZOOM*

Day	Time	Speaker	Title
Tue, 13.10.	14–16	Volker Tympel	CCC - The coolest and most expensive current clamp ever
Wed, 14.10.	15–18	<i>Semiannual Palaver of the Helmholtz Institute Jena</i>	
Thu, 15.10.	14–16	Ronny Stolz	SQUIDs – From theory to cool applications
Fri, 16.10.	14–16	Christian Enss	Really Cool: Physics and Applications of Cryogenic Detectors
